

# 2nd International Competition on Smart Innovation Technologies (IC-SIT'2024)

July 13-14, 2024  
Alexandria, Egypt

## About IC-SIT'2024

The IEEE Egypt AP-S/MTT-S Joint Chapter, Alexandria, Egypt, organizes the International Competition on Smart Innovation Technologies (IC-SIT). This competition aims to stimulate students' interests, excite them, and enable them to understand and experience the role of engineering in scientific and engineering innovation. The competition will culminate in an exhibition of project displays, final judging, and awards presentation in Alexandria, Egypt.

OR Scan the QR-Code below.

## IC-SIT'2024 Deadlines —

**25 February 2024**

Deadline for Registration  
and Proposal Submission

**30 April 2024**

Deadline for Project File  
Collection

- Microwave engineering.
- Navigation and localization.
- Radar and their applications.
- mechatronics and robotics.
- Computer network architecture software development.
- Solar / wind / renewable energy.
- Sound detection / sonar / acoustics.
- Power transmission and distribution.
- Information technology and security.
- Transistor technologies.
- Wearable technology.
- Navigation and guidance.
- Wireless and mobile comm. / networks.
- Artificial intelligence and biomedical Eng.

## Competition Challenge Areas

- Electrical and electronic engineering.
- Computer science and engineering.
- Aerospace engineering.
- Computer programming.
- Computing / mathematics / statistics.
- Microprocessor and control systems.
- Communication / encryption / coding.
- Astronomy and physics.
- Biochemistry and chemical Eng.
- Integrated electronic circuitry.
- Internet / IoT / networks.
- Fiber optics / lasers / LEDs.
- Virtual / augmented reality.
- Artificial satellites.
- Nanotechnology.
